**To increase the longevity of your handpiece always remember to spray handpieces with T1 Spray before sterilization.**
**Go Electric**
Sirona Dental Systems offers two different types of electric handpieces
**T1 CLASSIC** and **T1 LINE**

**T1 CLASSIC**
Ergonomic perfection in titanium
The SL motor is positioned in the elongated casing so that the center of gravity of the handpiece is directly in the hand.
- Solid, light-weight titanium casing
- Smooth, standard contours
- Sterile, glass-free optics
- Two different head sizes, standard and mini head
- Available with light
- 3 year warranty

**T1 CLASSIC and T1 LINE** electric handpieces are ideally suited for a broad range of applications, from standard preparations, to applications in prosthodontics, micro preparations, surgery, endodontics and preventive care.

**T1 CLASSIC for Standard Preparation Procedures**
**T1 LINE for Standard Preparation Procedures**
**T1 CLASSIC** and **T1 LINE** electric handpieces are ideally suited for a broad range of applications, from standard preparations, to applications in prosthodontics, micro preparations, surgery, endodontics and preventive care.

**T1 CLASSIC** and **T1 LINE** electric handpieces are ideally suited for a broad range of applications, from standard preparations, to applications in prosthodontics, micro preparations, surgery, endodontics and preventive care.

**T1 LINE**
Paving the way for greater flexibility
Flexibility - the universal ISO interface makes the T1 LINE electric handpieces compatible with most standard microtorque motor systems.
- High-quality titanium casing
- Comfortable grip
- Smooth, rounded contours ensure optimum handling
- Straight and contra-angle handpieces available with or without light, standard and mini heads available
- 3 year warranty

**SIRONITI APEX+**
Simple, safe, efficient endodontics

- Choice of two contra-angle handpieces: SIRONITI APEX+ (15:1) - 250 rpm - SIRONITI APEX+ is compatible with electric motor only
- Motor speed from 2,000 - 40,000 rpm, working range from 20 - 200,000 torque
- Displays only motor speed
- Constant high torque through electric power
- Connect to any ISO 4-hole turbine hose
- Displays only motor speed
- 3 year warranty

**Air-Driven Handpieces**
Sirona leads the way with its Premium, Comfort and Economy Class Handpieces.
With the exclusive Click&Go interface the Sirona high-speed handpieces for price-quality ratios are compatible with any type of couplings. This allows you to swap handpieces in seconds - at no extra cost.

- **Ergonomic perfection in titanium**
- **Simple, safe, efficient endodontics**
- **For Standard Preparation Procedures**
- **For Micropreparations**
- **Powerful**
- **Compact high torque through electric power**
- **Motor speed from 2,000 - 40,000 rpm, working range from 20 - 200,000 torque**
- **Digital speed control**
- **Display only motor speed**
- **3 year warranty**

**The Tried and True**
**Air-Driven**

**Not Electric? You could be...**

**SiroTorque L**
With Brushless BL or BL ISO Motor

- **Flexible, easy integration**
- **Small box in a modular design can easily be integrated into any treatment unit with water and air supply**
- **Connect to any ISO 4-hole turbine hose**

- **Versatility!**
- **Sirex Electric Motor BL ISO**
- **Sirex Electric Motor BL**

- **Flexible, easy integration!**
- **Enables the operation of an electric motor on a treatment unit with an existing air and water ISO 4-hole line**

- **Powerful!**
- **Compact high torque through electric power**
- **Motor speed from 2,000 - 40,000 rpm, working range from 20 - 200,000 torque**
- **Digital speed control**
- **Display only motor speed**
- **3 year warranty**
